

What do we do?

We design, develop & manufacture plant-based fiber solutions

Our Science

Footprint is developing breakthrough new technologies that allow our products to replace single- and short-term use plastics.

Our Solutions

Footprint offers plastic-free solutions that provide extended barrier properties to replace rigid plastics.

Footprint makes it easy for companies to switch out of plastic to preserve our future.

Footprint designs, develops, and manufactures 100% plant-based fiber packaging solutions that aim to be biodegradable, compostable, and recyclable.

PFAS-free fiber

Plant-based fiber

Plastic-free

Our History

Since its inception in 2014, Footprint has had a clear mission – to develop the process technologies and materials to create a healthier planet. We’re doing that with Fortune 100 companies and their respective industries today, eliminating single-use plastics as a first step.
